

CV: Elkhatim Ibrahim Alamin

Personal Data

Name: Elkhatim Ibrahim Alamin

Nationality : Sudanese

Date of Birth: 1st of jan 1979

Email khatimagbash@gmail.com

Mobile (Sudan):+249 918282912,00249123844077

Objectives

To seek a challenging position in Food quality control and food manufacturing that utilizes technical background and enhance my analytical and interpersonal skills and potentials further in order to utilize my hands-on experience and the optimum level for the maximum career growth. Also iam interest in environmental engineering(water and waste water engineering) for application my post graduate studies ,share on global environmental problems

Education

☑ M.Sc. cleaner production Sudan academy of science. Engineering research industrial technologies council29/2011 mainly concentrated on environmental engineering issues e.g. water and waste water treatment occupational health and safety .eia air pollution waste management etc

☑ B.Sc., with Honors in food engineering Gezira university16/3/2003

NOW PhD student in chemical engineering

Experiences

☑ 6/9/2010 – Present, Sudanese Standards & Metrology Organization (SSMO) in the following branches:

Port Sudan, HALFA,KHARTOUM

Nature of work

☑ Conduction of physical and chemical analysis for foods in order to define and recognize ratios and components of all substances.

☑ Inspection of food factories and facilities that provide services (catering, food outlet and restaurants)

☑ Supervision of the administrative activities of the department and participate in workshops and strategy of work and training.

☑ Expert in different instrumental analytical techniques

Halfa I had established ssmo office in the board between Sudan and Egypt .train workers and imitated technical work

. ☑from1/11/2006 up to 6/9/2010 ministry of physical planning and public utilities as chemical engineer

Nature of work

Water treatment and quality control ,conduct and share on environmental impact assessment for rosreis dam scale up project.

Set plan for water supply and stations operation.

☑From1st/april2004 up to 2009 teaching in nelain university faculty of community (par timer)

Nature of work

Teaching food industry supervise small scale project share on syllabus writing

. ☑From1/4/2003 up to27april2005 Sudanese fermentation industry as production engineer

Nature of work

Supervision of production make plan of production ,solve troubleshooting, train new workers, head of all production units e.g. molasses treatment fermentation separation drying up to packing and making technical support for marketing unit also I had attended and share on layout and operation of new equipment also I had shared on factory rerunning after many years stopping during which I had been building my opinion about environmental impact of industrial waste.

Training (field related):

☑Regional center for feed and feed Egypt training on wheat and flour quality control. (7days)

☑Uncertainty and method validation with ssmo Sudan(7days)

☑Certified assessor according to iso17025 and 9001 with quilts(5days)

☑Food inspection and certificate of origin of goods in Egypt from(7days)

☑Water treatment and quality control in Khartoum water authority(2months)

☑internal quality control eg quality control chats and statically quality control

Computer working skills

MS. Word , MS Excel , MS Outlook, MS Power Point and Full Using Internet Application .

Competence and Skills

☑ Initiative and proactive.

☑ Team player and ability to work under pressure.

☑ Problem solving attitude.

☑ Leadership and effectiveness.

☑ Outstanding communication and presentation skills.

☑ Ability to motivate others.

☑ Exposure to multi cultural environment.

☑ Eagerness to learn and upgrade own knowledge.

☑full memberships of Sudanese engineering society

☑engineering specialist registered by Sudanese engineering council

Languages

☑ Arabic: mother tongue.

☑ English: very good.

Referees & certificates will be available upon request.
