

**Dr. Mohamed Taieb LABIADH (PhD)**  
**Research Assistant Professor/Consultant**

Address : **Arid Regions Institute** (Institut des Régions Arides (IRA)),  
4119 Medenine – Tunisia.

Phone : (00216) 95 674 561  
Fax : (00216) 75 633 006  
**E-mail1:** Mohamed.labiadh@ira.rnrt.tn  
**E-mail2:** m\_labiadh@yahoo.fr

Date of Birth: 01 – 01 – 1977

Gender: **male**

Nationality: **Tunisian**

---

**COMPETENCES**

- Natural risk management (combating desertification, preservation of the natural environment, fighting sand encroachment, monitoring and assessment of the impact of desert dust on air quality and human health, water harvesting, rural migration mitigation, etc).
- Monitoring and assessment of desertification.
- Assessment of land degradation as a function of land use and agricultural practices.
- Soil conservation and land planning.
- Climate change adaptation and mitigation.
- Sustainable development.
- Project management.
- Investigation.
- Data management.
- Decision-making tools.

---

**ACADEMIC DEGREES**

- 2011 : **PhD Doctorate Degree:** Atmospheric Pollution Chemistry and Environmental Physics. Paris 7 – Denis Diderot University – France.
- 2001 - 2003 : **Master's Degree :** Combating Desertification and enduring managements of resources in arid environment. National Agronomic Institute of Tunis (INAT) - Tunisia.
- 1998 - 2001 : **Senior Engineer Degree:** Hydraulic and Rural planning. National Agronomic Institute of Tunis (INAT) - Tunisia.
- 1996 - 1998 : **Higher Preparatory classes Degree.** National Agronomic Institute of Tunis (INAT) - Tunisia.
- 1996 : **Baccalaureate of Science Degree.** High school 2 march 1934 - Tunisia.

---

**PROFESSIONAL EXPERIENCES**

**Since 2008:** Coordinator of scientific programs on “Land degradation assessment, combating desertification, fighting sand encroachment and monitoring of dust storms” at Arid Regions Institute (IRA) (Tunisia).

**Since 2011:** Research Assistant professor at Arid Regions Institute (IRA) (Tunisia) - Eremology and combating desertification Laboratory.

**Since 2015:** Tunisian PI (Principal Investigator) - INDAF (International Network to study Deposition and Atmospheric composition in Africa) of the station for continuous measurements of aerosols installed at the IRA of Medenine (Tunisia) (<http://193.95.22.108/index.html>) and ([https://www5.obs-mip.fr/wp-content-omp/uploads/sites/14/2016/12/organigramme-INDAAF-2017\\_CGL\\_BM.pdf](https://www5.obs-mip.fr/wp-content-omp/uploads/sites/14/2016/12/organigramme-INDAAF-2017_CGL_BM.pdf)).

**Since 2014:** Tunisian PI (Principal Investigator) – Aerosol Robotic Network (NASA) – Medenine – IRA site (Tunisia) ([https://aeronet.gsfc.nasa.gov/new\\_web/photo\\_db/Medenine-IRA.html](https://aeronet.gsfc.nasa.gov/new_web/photo_db/Medenine-IRA.html)).

**Since 2012:** Member of Scientific Committee of Arid Regions Institute (IRA) (Tunisia).

**2007-2011:** PhD researcher at Laboratoire Interuniversitaire des Systèmes Atmosphériques (LISA) (France).

**2007:** Post graduate participant at United Nation University Land Restoration Training program (UNU-LRT) (<http://www.unuirt.is/>) Iceland.

**2005-2011:** Senior Engineer at Arid Regions Institute (IRA) (Tunisia) - Eremology and combating desertification Laboratory.

**2003:** Senior Engineer at «Planning Company of Coteaux de Gascogne (CACG) - France».

## **PARTICIPATION IN RESEARCH PROJECTS**

---

- **2015:** Expert consultant at STUDI International Engineering on the project «Development of an executive plan for combating desertification, wind erosion and water erosion in the Basin of Lake Tchad (Niger, Tchad, Nigeria, Cameroun and Republic of CenterAfrique).

- **2014:** National coordinator of combating desertification and fighting sand encroachment component of the signed technical collaboration convention between the National Center for Combating Desertification (NCCD) in Libya and the Arid Regions Institute (IRA) of Medenine.

- National coordinator of ANR research project « **WIND erOSION in presence of sparse Vegetation (WIND-O-V)** ». Research project between IRA (Tunisia), INRA (France), IRD (France) and LISA (France) (2016 – 2019).

- National coordinator of research project « **TTransfer of Atmospheric Nutrients and COntaminants to the MEDiterranean Sea (TRANCOMED)** » (2016 – 2018).

- National coordinator of research project « **MODeling of wind erosion of soils from a complete coupling between saltation, sUSpension and wind Turbulent (MODUST)** ». Research project between IRA (Tunisia), INRA (France), IRD (France) and LISA (France) (2014-2015).

- National coordinator of research project « **PHYsico-CHemical analysis of the SALtation flux: fractionation process between the soil and the wind erosion flux in semi-arid zones (SalChiPhy)** ». Research project between IRA (Tunisia), IRD (France) and LISA (France) (2014 – 2015).

- Coordinator of **AFRICA** programme in Tunisia « scientific documentary in sand dune movement in Tunisia ». Collaboration Project between Arid Regions Institute (IRA) (Tunisia) and the **British Broadcasting Corporation (BBC)** (United Kingdom) (2010 – 2011).
- Coordinator of « the climate in power » programme in Tunisia « scientific documentary in sand dune movement in Tunisia ». Collaboration Project between Arid Regions Institute (IRA) (Tunisia) and **France Television (TV5)** (France) (2012).
- National coordinator of research project « Quantification of terrigenous aerosol (dust) emissions as a function of land use: example of southern Tunisia ». Research project between IRA (Tunisia), IRD (France) and LISA (France) (2014 – 2015).
- National coordinator of research program « Quantification of wind erosion in southern Tunisia: simulation and validation of mass flows » Research project between IRA (Tunisia), IRD (France) and LISA (France) (2012 – 2014).
- National coordinator of PHC Utique –CMCU research project « wind erosion in southern Tunisian arid zones: Experimental approach and modelling ». Research project between IRA (Tunisia) and LISA (France) (2010 – 2012).
- Member of research project « A **DUST** experiment in a low **Nutrient**, low chlorophyll **Ecosystem (DUNE)** ». Research project between Arid Regions Institute (IRA) (Tunisia) and Laboratoire d'Océanographie de ville Franche sur Mer (France) (2008 – 2011).
- Membre of research project « **Chemistry Aerosol Mediterranean Experiment (ChArMEx)** ». Institut National de Science et de l'Univers (INSU) (France) (2009 – 2011).
- Member of research project « Desertification in the Tunisian Djebel : resources uses and practices and become of local population ». Research project between IRA (Tunisia) and IRD (France) (2002-2003).

## **CONFERENCES AND SCIENTIFICS MANIFESTATIONS**

---

- 2018** : International Conference on Aeolian Research (ICAR X). 25 – 29 June 2018 – Bordeaux – France.
- 2018** : 9th International Workshop on Sand / Dust Storm sand Associated Dustfall. 22 - 24 May 2018 – Tenerife – Spain.
- 2018** : International Conference on Water, Environment, Energy and Society (ICWEES-2018). 08 – 11 May 2018 – Djerba – Tunisie.

- 2017** : 1st Euro-Mediterranean Conference for Environmental Integration (EMCEI). 22 – 25 Novembre 2017 – Sousse – Tunisie.
- 2016** : Quatrièmes Journées Scientifiques Internationales de l'Institut National Agronomique de Tunisie : Les défis de l'agriculture pluviale. 16 - 17 Novembre 2016 – Tunis - Tunisie.
- 2016** : International conference on integrated environmental management for sustainable development. 27 – 30 Octobre 2016 – Sousse – Tunisie.
- 2016** : Colloque international Préservation et utilisation durable des systèmes oasiens. 28 – 29 Septembre 2016 – Niamey – Niger.
- 2016** : European Aerosol Conference. 04 – 09 Septembre 2016 – Tours – France.
- 2016** : European Geosciences Union General Assembly. 17 – 22 April 2016 – Vienna – Austria.
- 2015** : Colloque international : Integrated Land and Water Resources management in the Dry Areas under Climate Change. 11 –13 Mai 2015, Djerba – Tunisie.
- 2014** : International symposium Surfaces et Interfaces Continentales en Méditerranée SICMED. 18 –20 novembre 2014, Gammarth – Tunisie.
- 2014** : Scientific days of Institute of Ecology and Environmental Sciences Paris. 30 september –01 octobre 2014, Versailles – France.
- 2013** : International conference : Wind erosion in Africans arid and semi arid regions : physical processes, metrology and contest techniques. 12 –14 novembre 2013, Djerba – Tunisia.
- 2013** : European Geosciences Union General Assembly. 07 – 12 April 2013 – Vienna – Austria.
- 2012** : Conférence régionale Erosion éolienne et lutte contre l'ensablement. 12 – 13 Novembre 2012 – Laghouat – Algérie.
- 2012** : European Geosciences Union General Assembly. 22 – 27 April 2012 – Vienna – Austria.
- 2012** : 23ème journées scientifiques de l'environnement Risques environnementaux : détecter, comprendre, s'adapter. 31 janvier – 02 février 2012 – Créteil – France.
- 2011** : Aquatic Science metting in Limnology and Oceanography. 13 – 18 February 2011 – Puerto Rico – USA.
- 2010** : Eaux, Déchets & Développement Durable (E 3 D). 28 - 31 Mars 2010 – Alexandrie – Egypte.
- 2009** : Olivebioteq 2009 : Pour un secteur oléicole rénové, rentable et compétitive en Méditerranée. 15 - 19 Decembre 2009 – Sfax – Tunisie.
- 2009** : 2<sup>nd</sup> World Congress of Agroforestry, Agroforestry – The Future of Global Land Use. 23 – 28 August 2009 – Nairobi – Kenya.
- 2009** : International Conference on Plants and Environmental Pollution. 06 - 11 July 2009 – Kayseri – Turkey.
- 2009** : Conference on Land Degradation in Dry Environments. 08- 14 March 2009 – Kuwait.
- 2008** : 9<sup>th</sup> International conference on Desert Technologies « Learning from the Desert : from constraint to an asset ». 12 – 16 Novembre 2008 - Douz – Tunisie.
- 2008** : International Congress of Solid Waste Management and Sustainable Development. 27 – 30<sup>th</sup> March 2008 - Hammamet – Tunisia.
- 2008** : Conference on Desertification. 22 – 23 January 2008 - Ghent – Belguim.
- 2007** : International forum on Soils, Society and Global Change. 31 August – 04 September 2007 - Selfoss – Iceland.
- 2006** : Workshop of starting LADA project (Land Degradation Assessment in Drylands) in Tunisia. 14 –15 November 2006 - Hammamet – Tunisia.
- 2006** : International conference : Wind erosion in Africans arid and semi arid regions : physical processes, metrology and contest techniques. 09 –11 may 2006 - Djerba – Tunisia.
- 2006** : Seminary – workshop « Salt – tolerant forage project co - financed by IFAD, Arab Fund and OPEC Fund. 13 –14 February 2006 - Médenine – Tunisia.

**2003** : Workshop in sensitisation and information of five south Tunisian CRDAs on « SE – PAN/LCD Tunisia » for conception and setting up of sub-national device SE/LCD. 02 – 03 July 2003 - Zarzis - Tunisia.

## **TEACHING ACTIVITIES**

---

**Since 2013** : Assistant professor (course and practical work), Research Master's degree 2 « Aridoculture and Combating Desertification » of the National Agronomic Institute of Tunis (INAT) and the Arid Regions Institute of Médenine (IRA) - Tunisia.

**Since 2013** : Assistant professor (course and practical work), Research Master's degree 2 « Geology of sedimentary basins » of the Faculty of Sciences –Gabes -Tunisia.

**Since 2013** : Assistant professor (course and practical work), Research Master's degree 2 (1<sup>st</sup> and 2<sup>nd</sup> year, in separate groups) Tempus « ClimAdapt » of the Faculty of Sciences –Gabes - Tunisia.

**2017** : Training session « Field and laboratory studies on wind erosion». Course and practical work for scientific team of Saudi Geological Survey. **23 - 30 september 2017, IRA - Tunisia.**

**2017** : Training session « Studies on land degradation and combating desertification ». Course and practical work for team of Saudi Geological Survey. **08 - 13 mai 2017, IRA - Tunisia.**

**2017** : Field school « mesures d'infiltration et de l'humidité dans les sols sableux des oliveraies du sud Tunisien ». **08 - 12 mai 2017, IRA - Tunisia.**

**2017** : Field school « mesures des flux d'érosion éolienne par différentes techniques ». **20 - 24 février 2017, IRA - Tunisia.**

**2012** : Assistant professor, International Research Master's degree « Desertification and it is control». **May 2013, IRA - Tunisia.**

**2006-2011** : Assistant professor (course and practical work), Research Master's degree 2 « Combating desertification and resources enduring managements in arid environment» of the National Agronomic Institute of Tunis (INAT) and the Arid Regions Institute of Médenine (IRA) - Tunisia.

**2003** : Tunisian Jeffara hydrogeology (South-east of Tunisia). **Course** destined for students of University of Science of Sfax (Tunisia), branch « arido-biology technique. **February 2003.**

## **STUDENT SUPERVISION ACTIVITIES**

---

**Since 2017:** Khalfallah Bouthaina, PhD student at Paris-Est Créteil Val de Marne (UPEC) University – France. “*Size distribution of fine particles in the cycle of desert dust*”. Co-supervisor with Prof. Stephane Alfaro (LISA – France).

**2017** : Hajji Fatma, Research Master's thesis at the University of Sciences of Gabès. “*Erodible soil fractions in southern Tunisia: Size distribution and vulnerability to wind erosion*”.

**2017:** Rebai Mouna, Research Master's thesis at the National Agronomic Institute of Tunis - Tunisia. “*Impact of compost from different origins on plant growth and fertility evolution and the structure of a degraded sandy soil*”. Co-supervisor with Dr. Pascal Podwojewski (IRD – France).

**2017:** Jarray Kawthar, Research Master's thesis at the National Agronomic Institute of Tunis - Tunisia. “*Measure of the infiltration of water on different surface states in southern Tunisia*”. Co-supervisor with Dr. Pascal Podwojewski (IRD – France).

**2016** : Khalfallah Boutheina, Research Master's thesis at Paris-Est Créteil Val de Marne (UPEC) university – France. “*Qualification of intensity of exchange of matter between surface and atmosphere in arid zones*”.

**2015** : Oueriemmi Houda, Research Master's thesis at the University of Sciences of Gabès. “*Relationship between the characteristics of cultivated soil surface and wind erosion in the Jeffara plain (South East Tunisia)*”. Co-supervisor with Dr. Jean-louis Rajot (IRD – France).

**2015** : Khalfallah Boutheina, Project of end of study of the High National School of Engineer of (ENSIT) - Tunisia. “*Development of an image analysis estimation method of the soil surface covering by soil aggregates*”. Co-supervisor with Dr. Jean-louis Rajot (IRD – France)

**2015** : Khatteli Wassim, Bachelor's degree from the Higher Institute of Applied Biology of Médenine (ISBAM) - Tunisia. “*Temporal variability of terrigenous aerosol concentrations in Medenine and its impact on the volatile compounds of two spontaneous plants: *Diplotaxis Simplex* and *Diplotaxis harra**”.

**2014** : Ben Dbabis Nada, Research Master's thesis at the University of Paris Diderot – Paris 7. “*Study of fractionation between soil and wind erosion flux in semi-arid regions*”. Co-supervisor with Dr. Jean-louis Rajot (IRD – France).

**2014** : Slimane Nahed, Research Master's thesis at the University of Sciences of Gabès. “*Genesis and sedimentary dynamics of desert deposits in the Nefzaoua region (southwestern Tunisia)*”. Co-supervisor with Dr. Mohamed Ouaja (Faculté des Sciences de Gabès – Tunisie).

**2013** : Khesairi Walid, Project of end of study of the National School of Computer Sciences (ENSI) - Tunisia. “*Impact of taking into account the sea surface temperature on the modeling of surface weather in southern Tunisia*”. Co-supervisor with Dr. Christel Bouet (IRD – France).

**2012** : Sghair Khalil et Attoui Badie, Research Master's thesis at the Higher Institute of Applied Biology of Médenine (ISBAM) – Tunisia. “*Experiments under controlled conditions of soil erosion by wind: studies of physical processes*”.
