Arab Development Establishment, Azraq. (The farm components are: 1 ha. of Strawberry under plastic house, 10 ha. of summer vegetables & 50 ha. of fruit trees). March 1985- July 1985

“Compulsory Service” at Jordan Armed Forces,

2nd Field Hospital, Zarqa (managing various gardening activities).
Feb. 1983- Feb. 1985

(In addition):

Leader

of team developed Phytosanitary system in compliant with the EU and international standard. 2011/2012

Official contact point of JORDAN

International Plant protection Convention (since 2003).

Official contact point of JORDAN

Inquiry point of Sanitary & Phytosanitary Agreement in Trade Agreements Unit (during 2003-2004)

Supervisor

Plant Protection Laboratories (Pesticides Residue, Pesticide Formulations, and Pest Diagnoses/ Plant Quarantine)' (during 2004).

National Coordinator of Regional Safe and Effective Use of Pesticides/ Integrate Pest Management (IPM) sponsored & supervised By USDA. May 1999- July 2002)

Membership in International Bodies:

Chair Person

Of the Commission for Phytosanitary Measure International Plant Protection Convention (IPPC /FAO) Since March 2010

Vic-Chair Person

Of the Commission of Phytosanitary Measure International Plant Protection Convention (IPPC /FAO) Since April 2008

Member

In the Technical Panel of Phytosanitary Treatments International Plant Protection Convention (IPPC) of the Food & Agriculture Organization of United Nations (FAO)

Member

In the Panel of Glossary of Phytosanitary Terms as Arabic speaking representative/ International Plant Protection

Convention (IPPC) of the Food & Agriculture Organization of United Nations (FAO) since March 2004.

Member

In the European And Mediterranean Plant Protection Organization (EPPO) Panel on Commission on Phytosanitary Measures (ICPM) Affairs, since May 2002

Member

In the Subsidiary Body of Dispute Settlement, IPPC/ FAO, since March 2002. until April 2008

Member

In the Standards Committee, IPPC/ FAO, since March 2002. Until March 2009

Workshops:

Several Regional workshops (Near East) for the review of the Draft International Standards for Phytosanitary Measures/ Egypt

- A training workshop on Capacity Building in Accession to and Negotiation on Agricultural Trade Liberalization Agreement of the WTO, 20-22/12/2003, Bahrain (AOAD).
- Middle East Regional Workshop on Integrated Pest Management (IPM), July 1-3, 2002, USA.
- Integrate Pest Management in Jordan, Amman, April 1994 (GTZ -IPM) Project.
- Decision Making in Plant Quarantine, Amman, 1993 (FAO).
- Plant Parasitic weeds, Amman, September 23-30, 1993 (FAO).

Training Courses:

National Training Courses:

- Qualifying leaders in civil services
- The WTO Agreement on Agriculture (Concept & Commitments),
- Principles of Plant Quarantine as related to International Trade
- SPS Border Control for Plant & Plant Products
- Weed Control

- Desert Locust Control

- Agricultural Extension
- Computer programs: e.g. MS Dos, Microsoft Office, SAS, EPPO Computer Programs, FAO PQDB, Internet, Etc.

b. Regional Training Courses:

- Desert Locust Control, Saudi Arabia, 1988.
- Biological Control of Citrus Leaf Miner, Syria, 1994.

○ **c. International Training Courses:**

- Train the Trainer in Desert Locust Control, London University, UK, 1997.
- Seed Potato Production, France, 1994.
- Arial Application of Pesticides, Cranfield Institute of Bio-aeronautics, Bedford Shire/ UK, 1989.

Projects:

- Team leader to develop Phytosanitary system in compliant with the EU and international standard
- I Coordinate the Jordanian National Strategy for House Fly Control projects: Processing of Organic Fertilizer, Poultry and Large Animal Slaughterhouses, Regional House Fly Control, Disposal of Plant Farm Residues and By-products, Removal of Garbage at the Fruit & Vegetable Markets, and Residues of Food Processing Industry, October 2003.
- Wrote the following project proposals: IPM in Fruit Tree Orchards, IPM in Olive Groves, 2003.
- Member in Methyl Bromide Alternative project 1999-2000 UNIP
- Coordinator of the Safe and Effective Use of Pesticides/ IPM Project, 1999-2000 (component of Middle East Regional Cooperation Project (MERIC), USDA- USAID.
- Coordinator of the Biological Control of Citrus Leaf-miner Project, 1994-1997, in cooperation with GTZ.
- Member in the Biological Control of Citrus Spherical Mealy Bug which was part of the Jordan Valley Development Project, USAID, 1986-1987.

Consultations:

- International Steward of Replacement or Reduction of Methyl bromide (International standard FAO)
- International Steward of Soil associated with plants in international trade (International standard FAO)

- Panel member Terms Glossary of Phytosanitary Terms, Arabic speaking permanent consultant.
- Expert Consultation on Phytosanitary Evaluation and Phytosanitary Measures in the Near East Countries, Tunisia, 15– 26 September 2003.
- Working Group on Pest Risk Analysis of Living Modified Organisms, Canada, 24-26 SEP. 2002 (FAO-IPPC).
- Working Group on Irradiation as a Phytosanitary Treatment, Mexico City, November 13-16 /2001 (FAO-IPPC).
- Consultant for NGOs in the fields of:
 - Seed Potato Production,
 - Citrus Grove Integrated Crop Management,
 - Integrated Pest Management of Vegetable Crops,
 - Integrated Pest Management of Olive Grove).

Technical Committees:

Member in the following Technical committees:

- Local Seed Potato Production,
- Imported Seed Potato Inspection,
- Investigation on Farmers Complaints,
- Imported & Local Fruit Tree Seedlings Inspection

Membership in Professional Societies:

* Member in the Jordanian Agricultural Engineers Association since March 1983.

* Establishing Member of the Desertification & Badia Development Society of Jordan.

Publications:

Reports:

- Country Report presented to the GTZ on Citrus Leaf Miner in Jordan, 1995.
- Country Reports presented to the FAO on:
 - Tobacco White Fly in Jordan, 1994.
 - Parasitic Weeds of Jordan, 1993.

Manuals:

5 Phytosanitary Manuals

2 Field Manuals

+ Filed guide to common insects, mites and diseases of greenhouse (Cucumbers, Tomatoes and Sweet Peppers)

+ Methyl Bromide Alternatives for agricultural use in Jordan

+ Illustrated Guide to Olive Tree Pests in Jordan .

3= Integrated Pest Management IMP Programs

+ IMP Program for (Olive groves in Jordan , Citrus groves in Jordan Valley, and Tomato under greenhouse conditions)

4= Pests First Records in Jordan

+ *Phyllocnistis citrella* (Citrus leaf miner)

+ *Euzophera pingus*

+ *Maladera matreda*

5= *Extension Brochures e.g.; Phyllocnistis citrella* (Citrus leaf miner),
Pests of Nursery Plants,

Effective use of Agricultural Chemicals (Pesticides and Foliar Fertilizers)

Travels:

I have been to the following countries: Franc, United Kingdom, Italy, Czech, Portugal, Germany, Mexico, USA, Canada, Brazil, Japan, Syria, Saudi-Arabia, Kuwait, Tunisia, Bahrain, Egypt, UAE, Thailand, and Pakistan .
