**ATTESTATION
OF TEACHING ACTIVITIES
AT THE UNIVERSITY OF GIESSEN / GERMANY
FOR
DR. EMAD AHMED MAHGOUB
FROM SUDAN**

This is to certify, that Dr. Mahgoud from Sudan has designed and carried out a 2 day intensive training course and workshop on

Policy Analysis Matrix (PAM)

This course was held at the Department of Project and Regional Planning at the Agricultural Faculty of the Justus v. Liebig - University in Giessen / Germany during the period 19 ~ 20 October 2010.

The Course has been completely instructed by Dr. Mahgoud for 22 Ph. D. advanced students from developing countries. Total instruction time was over 12 hours and additional exercises were provided to the participant. Beside the introduction to basics of policy analysis, applications of different Agricultural Policies have been exercised. Additionally, training was given to the use of the tool PAM the analysis of typical problems in developing countries.

I would like to thank Dr. Mahgoud for his significant contribution to the improvement of the methodological knowledge of our Ph. D. students and for his permanent sophisticated service he is providing to difficult methodological problems in the quantitative policy research of the foreign students.

Prof. Dr. Siegfried Bauer

Reference and Evaluation Letter
for Dr. MAHGOUB Emadeldin Ahmed from Sudan

I know Dr. MAHGOUB Emad Ahmed personally since 2003. Because of his advanced scientific qualification and his very engaged research activities in Sudan and at international level, I encouraged him to apply at the German Academic Exchange Service (DAAD) for a postdoc research scholarship for Germany. The successful application led to a research visit at the Department of Project- and Regional Planning at the Justus Liebig University of Giessen / Germany during the time 15 August to 15 November 2010.

In this time I had intensive contacts and close collaboration with Dr. MAHGOUB. He worked on several research topics, particularly on subsistence agriculture and commercialization of agriculture and their determinants in various developing countries. For this research Dr. MAHGOUB applied advanced econometric methods and mathematical programming models. Beside the research activities, he successfully provided an special 2-day Workshop about the topic "Policy Analysis Matrix" to our group of 22 Ph. D. students from developing countries. He also had close relations to the Ph. D students and advised the students in their ongoing research work.

Dr. MAHGOUR is very active and successful in publishing to outcome of the research in scientific journals and through contributions in scientific national and international conferences.

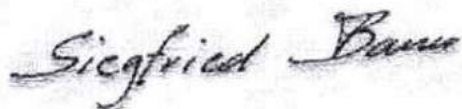

Given this background and the personal knowledge, I am sure, that he will fulfil the profile requirements in Agricultural Economics, particularly since he has

- an advanced University Degree and comprehensive postdoc experiences in various research areas,
- professional experiences in the field of food supply and demand, including food security and food aid,
- experiences in teaching and capacity building in the food sector,
- detailed knowledge of the agricultural and food sector in Sudan,
- excellent communication skills and speaks fluently English as well as Arabic and he knows all the details of the Arabic culture,
- Advanced knowledge and practice of computer application, in standard computer programmes, like MS office and also in advanced special software for quantitative economic research.

Given this academic qualification, I can recommend him for any research task in the field of Agricultural Economics.

Do not hesitate to contact me for any additional information.

Kind Regards

Prof. Dr. S. Bauer

(Co-ordinator of the DAAD Program "Agricultural Economics" at the University of Giessen)

Award of the Position of a
Recruiting Manager
for the international Ph. D. Program
“Agricultural Economics and Related Sciences”
for Sudan
between the University of Giessen / Germany and the DAAD
with
Dr. MAHGOUB Emad Ahmed
from Sudan

With this letter of agreement **Dr. MAHGOUB Emad Ahmed** from Sudan has been awarded the position Recruiting Manager for our Ph. D. Program “Agricultural Economics and Related Sciences” at the University of Giessen. This programme is carried out in cooperation with the German Academic Exchange Service (DAAD) for granting Scholarships for candidates qualified for Postgraduate Studies in Agricultural Economics and Related Sciences from developing countries. **Dr. MAHGOUB** is particularly qualified to take up this important position for his own country exclusively, since he has studied very successfully within this program and earned a Doctoral Degree in Sudan.

The task of the Recruiting Manager is to promote our program in the home country and to help in selecting qualified applicants for the Program. Particularly, he will be undertaking the following tasks:

- Organizing appropriate information platforms in relevant institutions in the home country (Universities, Ministries, Research Organisations, Consultancy Firms). The relevant information (Posters, Flyers, Electronic Materials) will be delivered by the University of Giessen.
- Acting as an adviser and a resource person to interesting students for all details and responding questions concerning the program.

- It is up to the Recruiting Manager to decide whether or not to invite interested candidates for information exchange workshop.
- Providing a preliminary evaluation report about the qualification and personal integrity of applicants from the home country by November every year.
- Helping in the organisation of the field studies by students during the second year in the home country.
- Helping in the organization of alumni activities with the former students in the home country, specifically workshops, summer schools and inter-country seminars.

The awarded person will carry out the tasks of a Recruiting Manager as an honorary post. This means that there will be no permanent payments from the University of Giessen or from DAAD. However, in special cases and for larger events, like organizing seminars or special information campaigns, the expenditures can be repaid and even personal wage can be paid on request.

This Agreement can be terminated any time from both sides without any reason. The agreement does not involve any legal commitment, which can lay claim for fulfilments.

Prof. Dr. Siegfried Bauer
Coordinator of the Ph. D. Program
"Agricultural Economics and Related Sciences"
