

## Curriculum Vitae

Mohamed M.M.  
Khartoum-Sudan  
Zip code 14314  
Mob. (+249) 0122150210  
E-mail: [elmagboul@gmail.com](mailto:elmagboul@gmail.com)

**Name:** Mutaz Magboul Mohamed Ibrahim.

**Nationality:** Sudanese.

**Birth:** June 16, 1977.

**Gender:** Male.

**Marital status:** Married and have a child.

**Religion:** Muslim.

**Language:** fluent talk and writing Arabic- English.

### **Education:**

- M.Sc. Dairy Production and Technology, University of Khartoum, the dissertation field on reproductive physiology and dairy breeding (Study on the Effect of Parity Order, Period and Season of Calving on the Reproductive and Productive Performance of Holstein Friesian cows in Sudan), February 2007.
- B. Sc. honors (second class division one) in Faculty of Animal Production, University of Khartoum, November 2003.

### **Experience:**

- Principles and Concept of Sustainable Development of Animal Production Research, training course from 29 – 31 December, 2013.
- Phenotypic and Genotypic Characterization of Farm Animal Genetic Resources, training course, from 15 December to 25 December, 2013.
- The director of Sheep Research Station (Elhouda) - Animal Resource Research Corporation – Sudan, 2011- up to now.
- Administration researcher of Kassala livestock research station – Kassala - Sudan, 2008-2011.
- Animal genetic researcher at Kassala livestock research station – Kassala - Sudan, 2007-2008.
- Assistant researcher on animal genetic and breeding (desert sheep improvement program) Animal Resources Research Corporation, 2006-2007.
- Teaching Microsoft Office and Internet, (professional office management-UNISCO) Kafinet institute centre, Khartoum North, 2005-2006.

- Training course in the Azaheer Company for Agriculture and Animal production-Dairy Farm (Formerly the Dairy Farm Arab-Sudanese Company for Agriculture, Production and Processing), September 2003-November 2003.
- Training course in the Animal Production Research centre-Kuku on all departments and projects, 2001.
- Training course in the Animal parasitology (classification and diagnosis of external and blood parasites) Department of parasitology-Faculty of veterinary Science, 2001.

### **Skills and Qualifications:**

- Microsoft Office, Internet.
- Full experience on SAS and SPSS data analysis Program.
- Fluent in western and eastern Sudan tribes' brogues.

### **Research and Publications:**

- M.M. Mohamed (in process) Genetic variance components for residual feed intake and feed conversion ratio and their correlations with other production traits in Sudanese sheep.
- Mohamed, M.M.; ABU-NIKHAILA, A.M., and Abd-Elwahab, K.J. (in process). The Relationship Between Udder, Teats and Milk Vein Measurements with Daily Milk Yield in Eryshi and Elgash types.
- Mohamed, M.M.; McDougal, A.J. (in press) effect of tropical climate and housing on exotic and commercial poultry breeds in Sudan. Submitted to Journal of Applied Sciences.
- Mohamed, M.M.; Abd-ElMoniem, M.A. (in press). Lactation Performance of Crossbred Dairy Cows in Kassala state (Sudan). Sudanese Journal of Animal Production.
- Mohamed, M.M.; Abd-ElMoniem, M.A. and Ahmed, M-K. A. (in process). Effects of parity order, season and period of calving on reproductive performance of Holstein-Friesian Cows in Sudan.
- Mohamed, M.M.; Abd-ElMoniem, M.A. and Ahmed, M-K. A. (in process). Effects of parity order, season and period of calving on productive performance of Holstein-Friesian Cows in Sudan.
- Mohamed, M.M. and Nada, A.A. (in process). Effect of Fasting Periods Prior to Slaughter on Yield of Broilers.
- Mohamed, M.M. and Nada, A.A (in process). Efficacy of some antimalarial drugs in treatment of *Eimeria tenella* in chickens.
- Mohamed, M.M. and Yousif, I.A. (in process). Estimation of Genetic Parameters of Growth Traits in Sudanese cattle breeds.

• **Membership and activities:**

- Agricultural Council.
- Agricultural Engineers Union.
- International Society of Camelid Research and Development (ISOCARD).
- A great interest on the environmental and animal genetic resources development.
- A great interest on Molecular Biology Techniques .
- Sudanese Animal Production Science Association.
